## Publications

Summary: To date, I have published 36 articles—excluding preprints—across 21 different journals. Including equal shared authorships, I am the first author of 9 (25%) and the last author of 4 (11%) of these published articles. Three published articles, along with four additional submitted (1) or ongoing studies (2,3,4), were pre-registered ®, and another two correspond to Registered Reports ®®. Of the 31 eligible articles, 27 (87%) provide all the open data 📄, and 24 (77%) include the code 📂 necessary to reproduce their results. A full list of articles, including [hyperlinks](#) to their associated data 📄, code 📂, and pre-registrations ® as well as their 🌈 altmetric score, is provided below. An updated publication list, including preprints, can be found on my [Google Scholar](#) profile. \* indicates corresponding author, † shared authorship.
